

DV EDUCATION PROGRAM

Journey Center's Domestic Violence Education Program provides education on the dynamics of domestic violence.

This **7-week group** provides a 'brave space' for women to share their stories without judgement while learning the dynamics of healthy relationships and how their relationship choices impact those around them.

- Intakes will be completed by phone. The Journey Center class facilitator will contact each referral to complete the necessary paperwork.
- Class assignments will be made when the intake is completed.
- Clients are required to attend one time weekly for 7 weeks.
- Individual services are provided to link women to resources in their immediate community.
- Child care is not provided.
